Our Education and Training Experience

GENERATING SUCCESS STORIES FOR OUR CUSTOMERS

GQI provides a broad spectrum of services and can implement a wide variety of solutions for the Education and Training industry. We have a broad experience with Education clients and projects.

University: Central Queensland University

Location: Queensland

Project: Early days of I.P. Telephony / Digital voice comms into the WAN (Unified Communications)

University: Griffith University

Location: Queensland

Projects: Leading in the requirements definition, specification, tendering and evaluation of offers for carriage services as well as the project leading the review of voice strategy and operational situations in implementing VoIP and I.P. voice trunks with the University's I.P. and ATM intra-campus network.

University: Queensland University of Technology (QUT)

Location: Brisbane

Project: Leading in the evaluation of telephone service requirements and procurement strategy for this significant university site.

Company: Queensland Catholic Education Commission

Location: Brisbane

Project: Scoping study for the preparation of telecommunications strategic review study.

University: The University of Sydney

Location: Sydney

Project: We produced a detailed tender for the upgrade of the copper cabling network around the campus and replacement of the telephone network approximately 5,000 telephones across the campus.

University: Melbourne University

Location: Melbourne

Project: Developed an IT and telecommunication strategy and created a go-to-market document for the upgrade of the IT Network.

We produced a detailed plan of the University's copper cable network and a tender document for the upgrade and replacement of the telephony network.

ITIL TRAINING FOUNDATION & PRAXIS MODULES

GQI COURSE - DELIVERED ONLINE OR ON PREMISE

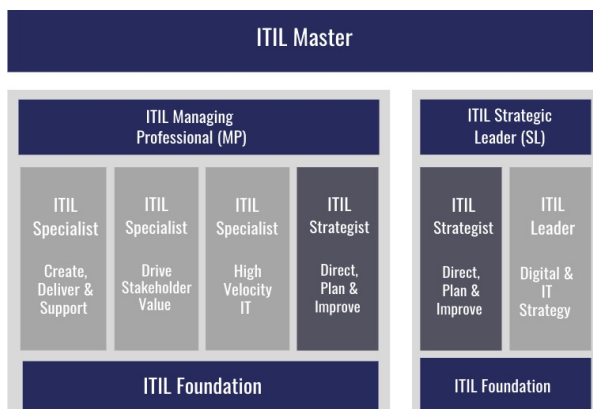

GQI ITILv4 Foundations Fully Certified Training Course

WITH HIGH LEVEL TELCO CONCEPTS ACROSS 7 ITIL PRACTICES

GQI is pleased to share an ITIL training offering focusing on Telecommunications Service Management. To register interest and more information on schedule & pricing please contact us.

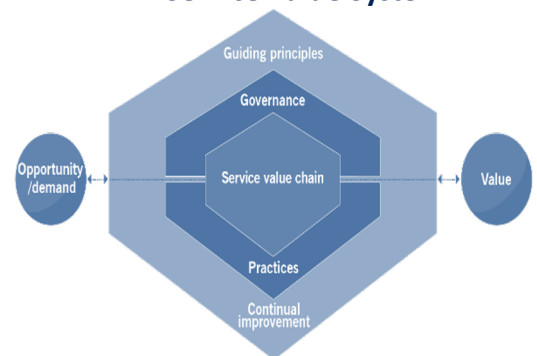

ITIL supports organisations and helps individuals to gain optimal value from IT and digital services. It helps define the direction of the service provider with a clear capability model and aligns them to the business strategy and customer needs.

In a time of unprecedented change and increasingly fast paced and complex environments, organisations need to be more agile and better equipped to adapt what they do and ready to adopt new ways of working to succeed. ITIL 4, through its framework, helps organisations to connect and align these different challenges that are relevant to a wide range of professionals working in the digital world.

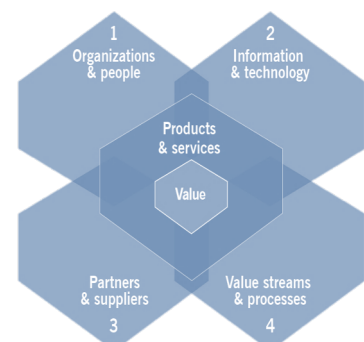

Structure and Benefits of the ITIL 4 Framework
